Help Guide to Saturn**

You are now heading to Saturn. Your new targets are:

Saturn
Recognise numerals to 20
Put numbers 1 to 20 in order
Count forwards and backwards to/from 30
Count in tens from 0-100 and back again

Saturn	Examples	Can your child answer these questions?
Recognise numerals to 20	Using flashcards read the number shown.	When sharing a book together ask the child to find page 12. Place number cards on the floor or up the stairs—ask them to read each card as they step forward. Turn random cards over and ask: what number is missing? How is that number written?

Saturn	Examples	Can your child answer these questions?
Put numbers 1 -20 in order	Build a number line using 1-20 flashcards. Put these 5 numbers in order 18, 5, 12, 9, 15	Write numbers 1-20 on a collection of pebbles. Place the pebbles in order. Caterpillar Ordering - An Ordering and Sequencing Game (topmarks.co.uk)
Count forwards and backwards to/from 30	To count from 0 to 30 accurately crossing the tens numbers and then back again	Initially the children will chant the numbers in the correct order. Challenge them by asking them to count on from a given number e.g. 25 Then If I count from 30 what will the 8th number be? Also encourage them to write the numbers down. Counting Cars - mobile friendly (ictgames.com)
Count in tens from 0-100 and back again	Count forwards and backwards from 0 to 100 in 10s 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100 100, 90, 80, 70, 60, 50, 40, 30, 20, 10	How far can you count in tens? What number would follow in this sequence: 40,50,60,? How far can you continue the sequence? What about this sequence? 90,80,70,... What would come next? Can you get back to 0? What number is missing? 70 60 — 40
